PHP, HTML5, CSS3, JavaScript, JSON, Python

WordPress & Plugins:

Custom plugin development, Gutenberg blocks, WooCommerce customization, plugin maintenance

SEO & Optimization:

On-page SEO, product optimization, website performance

Project Management:

Client Communication, Requirement Analysis, Project Delivery

PROFESSIONAL EXPERIENCE

Freelance WordPress Developer & Plugin Engineer | 2024 – Present

Developed and published two WordPress plugins on WordPress.org:

- [Convert Articles to PDF](#)
- [Shopper Rewards](#)

- Currently working on custom WordPress and WooCommerce plugin development projects focused on performance, automation, and user experience improvements.
- Developed and maintained the Awning Concept website, creating responsive page layouts, implementing SEO best practices, and ensuring a smooth user experience across devices.
- Contributed to the development of Brighter Future Living, an academic services platform, by building and managing WordPress pages, structuring service content, optimizing website performance, and implementing SEO-friendly layouts for improved visibility and usability.
- Managed and maintained the Marqueza Brand WooCommerce website, including product management, content updates, plugin integration, store maintenance, and on-page SEO improvements to support business growth.
- Performed website migrations between cPanel and CyberPanel environments, ensuring data integrity, minimal downtime, and successful deployment.
- Customized WordPress themes and plugins to meet client-specific business requirements and functionality needs.
- Optimized website performance, page structure, and technical SEO elements to improve loading speed, usability, and search engine visibility.
- Collaborated directly with clients to gather requirements, provide technical solutions, and deliver projects within agreed timelines.

PROJECT HIGHLIGHTS

PROJECT HIGHLIGHTS

- Awning Concept – Developed and maintained a responsive WordPress website with an SEO-focused structure and optimized user experience.
- Brighter Future Living – Contributed to website development, content structuring, page management, and SEO optimization for an academic services platform.
- Marqueza Brand – Managed WooCommerce store operations, product maintenance, plugin integrations, and on-page SEO improvements.
- WordPress Plugins – Successfully developed and published "Convert Articles to PDF" and "Shopper Rewards" on [WordPress.org](https://wordpress.org/).
